

WAX PREMIUM RIBBONS

Datasheet

- > High-performance wax ribbons with increased smudge resistance and multiple receptor compatibility.
- > Made to meet the most demanding of wax application needs.
- > Toshiba approved for maximum productivity

Offering excellent print density with superior mechanical and smudge resistance these premium quality ribbons combine the benefits of high performance and speed. This quality will suit many applications that would ordinarily need a more costly wax resin product. Ideal for swing tags, tickets and all general label printing.

As one of Europe's biggest thermal transfer ribbon suppliers, we are committed to quality and reliability to help your business grow. Designed and manufactured to truly demanding industry standards, there is no better choice.

Like all our products, our consumables, too, are designed to improve printing efficiency, while at the same time reducing waste and minimising delivery and transportation costs. This not only saves you money, but also helps create a greener tomorrow.

SPECIFICATIONS

Key features

- > Excellent smudge resistance
- > Superior print density
- > High speed printing at low temperatures

	WP1F	WP2F	WP3F
Melting point	65°C		75°C
Film thickness	< 9 µm		< 9 µm
PET thickness	4.5 µm		4.8 µm
Backcoating	Silicon based		
Max. Printing Speed	300 mm/sec		305 mm/sec
Colour	Black		
Storage	5-35°C 20 – 80 % RH		
Blackness (Macbeth D19C)	2.1 ODR	2.0 ODR	1.8 ODR
Mecanical resistance	No damage after x cycles:		Very good
	40	55	
Heat resistance	60°C	100°C	70°C
Solvent resistance	None		
Head Type	Flat		

The specifications above are guidelines and vary depending on the substrates used. Contact us for an individual assessment. Using Toshiba ribbons ensures minimum wear on working parts and a better total cost of Ownership (TCO). Protect your printhead life and warranty by using only Toshiba ribbons which are tailor-made for Toshiba thermal printers.
