**TOGETHER
INFORMATION**

CONNECT. INTEGRATE. SIMPLIFY.

Technology for every office, delivering advanced functionality, ease of use and peace of mind.

Every business is unique. That's why Toshiba offers customisable solutions that can be tailored to your needs. Our solutions simplify complex tasks while managing diverse information efficiently and safely to maximise your productivity.

The Toshiba e-STUDIO7516Ac series is configurable to provide tailored and cost-effective solutions. Toshiba devices ensure that businesses are managing their information in the most effective way while helping them to meet their green objectives.

Fast, Sleek and Versatile.

Toshiba's high-end A3 colour line-up has an ultra-modern look and houses the latest technology with brilliant print quality, delivered at a speed of up to 75 pages per minute in colour as well as up to 85 pages per minute in monochrome.

- > Advanced Toshiba e-BRIDGE Next controller technology produces high-quality document output with a resolution of up to 1,200 dpi x 1,200 dpi.
- > Print speeds of 55/65/75 ppm in colour and 65/75/85 ppm in monochrome.
- > High-speed, high-capacity Dual Scan Document Feeder (DSDF) for rapid document processing.
- > RGB substitution allows accurate colours with office applications.
- > Auto-calibration ensures consistency of colour across small and large print jobs.

SIMPLE. SMART. STYLISH.

An intuitive 26 cm (10.1") tablet-style touch screen is easy to use and fully customisable to tailor settings and automate workflows – including the integration of third party solutions resulting in simple operation and improved efficiency.

The interface allows you to streamline complicated multi-step processes into automated one-touch functions.

TOSHIBA INNOVATION AT ITS FINEST.

When it comes to seamless workflows and simplified integration, the e-STUDIO7516AC series represents the finest Toshiba has to offer. The latest e-BRIDGE Next technology enables the systems to offer embedded applications, and integration with third-party services.

While AirPrint and Mopria both support the printing needs of mobile device users, Wi-Fi Direct simplifies access to the MFP. Toshiba's exclusive e-BRIDGE Print & Capture app enables additional printing features and the ability to scan documents back to tablets or smart phones.

As each company has different ways of storing and sharing data, these colour systems can be equipped with apps, which meet your business requirements or preferences. Whether you wish to connect to cloud services or local applications, we have the solution.

Impressive Security

The advanced features of the e-STUDIO7516AC series help secure your data. Protecting your sensitive data is top priority when designing our products – which is why we offer a large range of built-in and optional features:

- > The self-encrypting Toshiba Secure HDD provides top level security making unauthorised access to the data virtually impossible.
- > By adding optional security functions the systems conform with HCD-PP v1.0 and are Common Criteria certified.
- > User authentication provides an extra layer of security while granting direct access to the user's print jobs at the same time. We offer a large range of card and biometric readers with different features to meet all your needs.

Environmental Protection

Protecting the environment is embedded in our corporate philosophy and we ensure that our products comply with the highest environmental standards. Exceptional Typical Energy Consumption (TEC) values and a low power sleep mode are just some examples of how we can help you save valuable resources.

With the e-BRIDGE Plus for Green Information app you can follow your environmental contribution directly on the screen of the MFP. It provides simple graphs and helps promote a more effective use of paper.

INNOVATIVE FEATURES. VERSATILE CONNECTIVITY.

The Toshiba e-STUDIO7516Ac series helps workgroups connect, integrate and simplify while improving efficiency, productivity and offering high quality .

Robust High Speeds include 55/65/75 brilliant colour pages per minute and 65/75/85 monochrome pages per minute, respectively.

Toner Change On-The-Fly allows you to replace toner cartridges while the MFP is printing.

Embedded Optical Character Recognition¹⁾ (OCR) simplifies the creation of searchable PDFs or prepares for editable document formats such as Microsoft Word.

Print from USB for quick and easy printouts. If necessary, the MFP will automatically scale your documents to fit the available paper size.

Scan to USB is great for working with your documents when on the go. With the possibility to create PDF/A-2 files your documents are ready for long-term archiving.

Scan and Fax Preview allows to review, rotate and modify your scanned documents or incoming faxes before saving or printing them.

Bluetooth/Wi-Fi¹⁾ to simplify workflow processes at the MFP and enable Wi-Fi Direct printing – ideal for mobile users.

Mobile Printing gives you full flexibility and lets you easily connect to mobile devices via AirPrint, Google Cloud Print or Mopria Print Service.

Barcode Printing gives you the possibility to send print data from your ERP system directly to the MFP. The barcode sequence is automatically processed and printed without the need of additional middleware.

CONFIGURATION

HIGHLIGHTS

e-BRIDGE-Next Technology

Toshiba's e-BRIDGE Next platform enables the seamless integration of third party solutions. The MFPs are fully customisable by adding e-BRIDGE Plus applications that connect to cloud solutions or local applications. For the perfect fit, e-BRIDGE Next can run with customised apps.

Multi Station Print

Toshiba's serverless printing solution allows users to send print jobs from their desktop and retrieve them at up to 50 different MFPs by simply swiping their badge and authenticating at that device. Easily make last-minute changes to a print job or re-print previous jobs directly on the MFP.

Dual Scan Document Feeder

The 300-sheet capacity, high-speed, high-capacity document feeder comes as standard on the e-STUDIO7516AC series and seamlessly scans both sides of each page in a single pass – producing up to 240 crystal-clear images per minute.
